

Visa B2B Connect

Cross Border Payments
Simplified

Innovative multilateral cross-border network designed to accelerate how commercial payments move around the world

FAST • INNOVATIVE • SECURE • TRANSPARENT • LOWER COSTS

Global cross-border payments via a single connection

Visa's innovative global multilateral network delivers secure, predictable and cost-effective cross-border payments for financial institutions and their corporate clients.

Learn about
Visa B2B Connect

Enhanced customer experience

Predictability – Know exactly when the funds will be delivered.

Finality – Irrevocable payments delivered to the beneficiary bank in full value, every time.

Transparency – Understand the fees and FX rates from the outset.

Reduced cost

A single connection to a global network with no intermediary fees.

Easy implementation and enhanced translation reduces upfront infrastructure investment.

Efficiently manage liquidity and reduce dependency on correspondent relationships.

Security and efficiency

Permissioned network where all members are known participants.

Layered protection – Digital identity feature tokenizes sensitive business information.

Direct messaging within the network facilitates efficient case resolution.

Innovation and optionality

Unique technology offers significant benefit when compared to more traditional solutions.

Option of using Visa or your own FX rates for foreign currency payments.

Choice to complement your other payment services with Visa B2B Connect.*

* Visa B2B Connect benefits are applicable to in-network payments only. Payments to out-of-network banks are also available.
